WORK EXPERIENCE

Research & Development Software Engineer

3DVIA | Dassault Systemes

10/2022 - Present

Pune, India

Achievements/Tasks

- Developed and enhanced multiple functionalities within 3DVIA, an interior design and virtual reality simulation software.
- Designed and implemented complex rules and algorithms to improve 3D rendering and virtual simulation processes.
- Collaborated with cross-functional teams to identify, troubleshoot, and resolve bugs, improving overall software stability and performance.

Software Engineer (Front End Developer) Cognizant

11/2019 - 09/2022

Achievements/Tasks

- Led the development of an inventory management page using React, improving data accessibility and user experience for the client.
- Created custom React components tailored to client specifications, enhancing the functionality and aesthetics of the web application.
- Contributed to the continuous improvement of the client's web application by integrating new features and fixing bugs, resulting in a more efficient and user-friendly interface.

PERSONAL PROJECT'S

Movie Ticket Booking App

- Developed a dynamic seat arrangement feature using React components and map concepts; utilized Redux for centralized state management, enhancing data accessibility across components.

Movie Search App

- Built a React application that fetches and displays live data using APIs; implemented a live search feature with efficient data listing.

Image Search Engine

- Engineered an image search functionality using APIs and React, providing users with a seamless search experience.

Video Search Engine

- Integrated YouTube API into a React application to enable video search; utilized both class-based and functional components for a robust architecture.

EDUCATION

Bachelor of Technology in Electrical Engineering

Haldia Institute of Technology

SKILLS

JavaScript	React.Js
NodeJS	Docker
SourceTree	Jenkins
HTML5	CSS3
React Router	Redux
VSCode	Git
MySQL	

ACHIEVEMENTS

Cleared JavaScript assessment, scored more than 80%

Earned Silver Badge for Java on HackerRank by scoring more than 80%

Earned Silver Badge for SQL on HackerRank and scored more than 80%

CERTIFICATES

Modern React with Redux from Udemy

HTML & CSS from Udemy

JavaScript (Basic) from HackerRank

SQL (Basic) from HackerRank

JavaScript from Udemy
